ROSE LIST
FOR THE TRADE
SEASON 1938-39

Robert Pyle "brings home the bacon"—
New Rose-wood from Europe.

Don't fool yourself!

The plant patent has **come to stay**. It will help every nurseryman who will "play ball".

Your best trade does not want old models and second rate types. If you'll lead them to it they'll insist on the newer streamlined models, every one of which are patented.

A big wholesale grower said to us this: "Your introductions over the past ten years are the highest quality from any firm in U. S. A."

Well, we patent only the cream of the cream, about one in five of our introductions. The patented kinds are the leaders for the years ahead.

If you want to start cautiously try our

“RED CIRCLE” ROSES

When You See This Trade Mark 

the Red Circle tag on a Rose—you know instantly—that it is one of the varieties carefully tested and later *patented* by The Conard-Pyle Company. They are the cream of all our introductions.

Leading wholesale Rose growers join us in offering the Red Circle varieties.

In addition to which we list below the best of other Novelties.

Thus you have here the leaders for today. Note terms and prices—Retail and Wholesale—both of which are uniform throughout U. S. A.

INFORMATION FOR YOUR USE

The following provisions apply to all patented and trade-marked plants we sell.

Each plant so indicated is a patented variety under the laws of the United States and any asexual reproduction or distribution by sale, gift, or otherwise of scions, buds, or cuttings for such reproduction, without license from us, constitutes an infringement of the patent. Any unauthorized reproduction, sale or other distribution of reproducing propagating material of these patented plants, prohibited by the patent under these names and trademarks or any other name or names, will subject the reproducer, seller or distributor thereof to prosecution for infringement under the United States Patent Laws.

WHOLESALE PRICES: One to twenty plants at 10 rate, 20 to 250 plants at hundred rate, 250 to 2500 plants at thousand rate.

RETAIL PRICES. It is the established policy of The Conard-Pyle Company that purchaser of these patented roses shall not list or sell them at less than per each or per dozen retail prices as established for the current season (not less than three of a kind at dozen rates) or include them in any group, collection or combination offers except in connection with other patented roses, the retail selling prices of which are definitely established and then only in groups of not less than three patented plants and at a total selling price for the group figured at not less than the dozen rate of each plant in the group—also that these patented plants are not to be featured as a premium in any instance **and that failure to comply with this policy will result in discontinuance of the supply.**

The Foreign Rights on Conard-Pyle Patented and Novelty Roses are reserved and no plants may be shipped outside of the United States without our consent.

In Patented Roses only singles may be ordered at the ten rates. This does not apply to other Novelties or regular varieties.

Persons or firms not licensed by us to sell these Patented Plants at wholesale are limited to resale at retail only.

TERMS—2% and free packing for cash before shipment. 2% for payment in 10 days from the date of invoice; net 60 days; 6% interest charged on past due accounts. Packing at extra cost.

This list cancels all previous quotations. Goods quoted F. O. B. West Grove, Pa. Prices intended for only those actually in the trade; and subject to change without notice.
